

## Attachment K: Sign Permits

### Section K1: Supplemental Questions

1. Please check the type of sign to be constructed:

- Ground Sign. Any sign erected upon an independent structure or erected directly upon the ground surface, and/or any sign which is not supported by any part of a building.
- Projecting Sign. Any sign mounted upon a building so that its principal face is at an angle of 135° or less with the building wall, and having not more than two faces visible.
- Flat Wall Sign. A sign erected or displayed on or parallel to the surface of a building, fence, wall, or other structure, including letters or other characters that are carved or embossed on any such surface.
- Window Sign. A sign entirely contained inside a building which is visible from the street, providing notification of products for rental or sale, or of special events, and having one face visible.
- Billboard. A sign which directs attention to a business, commodity, service, or entertainment conducted, sold, or offered at a location other than the premises on which the sign is located.

2. Will the sign display letters, numbers, and/or graphics that are designed to be readily changed electronically?

- Yes
- No

3. Will the sign be illuminated?

- Yes
- No

4. Setback from right-of-way in feet.

\_\_\_\_\_ ft

5. Height of sign above ground level in feet.

\_\_\_\_\_ ft

6. Area of the sign in square feet.

\_\_\_\_\_ sf

7. Depth of footing/posts.

\_\_\_\_\_ ft

### Section L2: Required Attachments

1. Please attach two (2) copies of a sketch plan showing dimensions, material to be used, and any text and/or images that will appear on the sign.

### Section L3: Inspection Schedule Acknowledgement

Listed below are the stages of construction when the East Brandywine Township Codes Official must be notified. Inspections must be scheduled twenty-four (24) hours in advance. Failure to notify the township before proceeding to the next step will result in a stop work order. All inspections are scheduled by Township Staff at (610) 269-8230.

#### 1. SIGN SETBACK INSPECTION

Inspection will be made checking location of construction prior to excavation. The location of the sign and property corners must be clearly marked.

**2. ELECTRIC (IF APPLICABLE)**

All electrical inspections must be performed by CEDARVILLE Engineering.
